

**Public Protection (food & safety)****Food Premises Inspection Report**

Name of business:	Sir Toby's Beers
Address of food business:	Stall 182 Market Place Norwich NR2 1NE
Date of inspection:	13/06/2025
Risk rating reference:	25/00508/FOOD
Premises reference:	19/00138/FD_HS
Type of premises:	Retail shop
Areas inspected:	Servery
Records examined:	None
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Craft/bottle beers

**Relevant Legislation**

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

**What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## FOOD SAFETY

### How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### 1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### Contamination risks

**Contravention** The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- blue roll had been stored on top of the beer barrel

#### Hand washing

**Contravention** The following indicated that hand washing was not suitably managed:

- no means for hygienically drying hands was available

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### **Cleaning of Structure**

**Contravention** The following items could not be effectively cleaned and must be covered, made non-absorbent or replaced:

- fridge door seals split

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

### **Type of Food Safety Management System Required**

**Contravention** You are a low risk business and do not have a food safety management system or what you have in place is not suitable given the food risks associated with your business. You still require a minimum amount of documentation. This might include your hygiene rules, pest control reports, a staff illness and exclusion policy, a cleaning schedule, date coding, temperature checks of display chillers, and hand-over diary etc.

**Contravention** Your documented Food Safety Management System or Safer Food Better Business pack was not available for inspection. As a consequence you could not demonstrate an effective system for managing food safety hazards.

**Legal Requirement** Ensure that your food safety management system is available on site so your staff can refer to your procedures and so that daily records of checks can be completed.

**Information** You can download a Safer Food Better Business pack and refill diary pages from the FSA website: [www.food.gov.uk/business-industry/caterers/sfbb](http://www.food.gov.uk/business-industry/caterers/sfbb)

**Information** The absence of any documentation has resulted in a poor score for confidence in management and this, in turn, has had an adverse effect on your Food Hygiene Rating.

### **Food Hazard Identification and Control**

**Contravention** The following SAFE METHODS are missing from your Safer Food Better Business pack:

- cleaning
- cross-contamination

### Proving Your Arrangements are Working Well

**Contravention** You are not working to the following safe methods in your SFBB pack:

- 4-weekly checks
- cleaning / clear and clean as you go
- cleaning schedule
- cloths / cross contamination

**Recommendation** Your SFBB pack should be used as intended so as to guarantee you are fully complying with your legal obligation to have a documented food safety management system in place.

By using a normal diary you were failing to SIGN OFF at the end of each day; had nowhere to record that opening and closing checks had been done; were not reminded to record NON CONFORMATIES and to review your management system every 4-weeks.

### Infection Control / Sickness / Exclusion Policy

**Guidance** UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

### Welfare Provision and Facilities

**Contravention** The following matters did not meet the requirements of the Workplace (Health, Safety and Welfare) Regulations 1992:

- gas cylinder not chained up
