

Public Protection (food & safety)**Food Premises Inspection Report**

Name of business:	Happy View
Address of food business:	69A Ketts Hill Norwich NR1 4EX
Date of inspection:	20/06/2025
Risk rating reference:	25/00533/FOOD
Premises reference:	09400/0069/A/000
Type of premises:	Food take away premises
Areas inspected:	None
Records examined:	Temperature Control Records, SFBB
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Hot food take away - Chinese

Relevant Legislation

Food Safety Act 1990 (as amended)

Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)

Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
Your Total score	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score	5	10	10	15	20	-
Your Rating is	5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food Hygiene standards are excellent. You demonstrated full compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. **(Score 0)**

Contamination risks

Recommendation Cardboard boxes should not be stored alongside ready to eat food in refrigerators. Salad items should be transferred to food grade plastic or metal containers.

Legal Requirement At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

Hand washing

Observation I was pleased to see hand washing was well managed.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Recommendation There were several containers of cooked rice and meat items (chicken balls) that were being stored at room temperature ready for reheating in response to Friday night orders. High risk food should be stored below 8°C or over 63°C in order to ensure that harmful bacteria do not grow to dangerous levels.

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

Cleaning of Structure

Contravention The following items were dirty and require more frequent and thorough cleaning:

- Minor debris found behind and under equipment
- Hand contact surfaces on the door from the kitchen stained

Observation The kitchen had been well maintained and the standard of cleaning was good.

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- hand contact surfaces on fridges and freezers

Cleaning Chemicals / Materials / Equipment and Methods

Information You must ensure that the sanitisers you use are effective against bacteria. Ensure that they meet the following standards BS EN 1276:1997 and 13697:2001.

Guidance Even when using a surface sanitiser you should be following the TWO STAGE cleaning method. Apply the sanitiser once to remove visible dirt and food debris and then a second time to ensure effective disinfection. Make sure you follow the correct contact time for the product.

Observation I was pleased to see that the premises was kept clean and that your cleaning materials, methods and equipment were able to minimise the spread of harmful bacteria between surfaces.

Facilities and Structural provision

Observation I was pleased to see the premises had been generally well maintained and that adequate facilities had been provided.

Pest Control

Observation I was pleased to see that the premises was proofed against the entry of pests and that pest control procedures were in place.

Observation You have a pest control contract in place and there is no evidence of pest activity on the premises.

3. Confidence in Management

A food safety management system is in place and you demonstrate a very good standard of compliance with the law. You have a good track record. There are some minor contraventions which require your attention. **(Score 5)**

Type of Food Safety Management System Required

Observation Your SFBB/food safety management system was in place and working well. I was confident you had effective control over hazards to food.

Observation You were monitoring (and recording) the temperatures of your fridges and freezers as well as the temperature of cooked food and could demonstrate effective systems for controlling bacterial growth and survival.

Recommendation Recording the time and temperature at the start and end of the cooling period for batches of food that are to be reheated at a later date would help you to demonstrate that effective controls are in place to prevent harmful bacteria growing while high risk food such as cooked rice and cooked meat items are cooling

Recommendation In order to be able to demonstrate that food is being cooked thoroughly I would recommend that you record the temperature of at least two meat dishes and record the time that the temperature was taken. You should vary the dish chosen so that you can demonstrate that the whole range of menu items that are regularly served are being checked for suitable cook temperature.

You may find the attached record sheets useful for staff to record these temperatures and times. Please feel free to copy and print spare copies if you wish to use them

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had established a folder listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
