

## **Public Protection (food & safety)**

### **Food Premises Inspection Report**

Name of business:	The Aslan
Address of food business:	1 Red Lion Street Norwich NR1 3QF
Date of inspection:	23/06/2025
Risk rating reference:	25/00539/FOOD
Premises reference:	25/00151/FD_HS
Type of premises:	Restaurant or cafe
Areas inspected:	All
Records examined:	SFBB, Temperature Control Records, Training Certificates/records
Details of samples procured:	None
Summary of action taken:	Informal
General description of business:	Café/Bar

### **Relevant Legislation**

Food Safety Act 1990 (as amended)  
 Regulation (EC) No 178/2002 applied by The General Food Regulations 2004 (as amended)  
 Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food  
 Safety and Hygiene (England) Regulations 2013  
 Health and Safety at Work etc. Act 1974 and related regulations  
 Food Information Regulations 2014

### **What you must do to comply with the law**

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information, Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

## **FOOD SAFETY**

### **How we calculate your Food Hygiene Rating:**

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area	You Score					
Food Hygiene and Safety	0	5	10	15	20	25
Structure and Cleaning	0	5	10	15	20	25
Confidence in management & control systems	0	5	10	15	20	30
<b>Your Total score</b>	0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
<b>Your Worst score</b>	5	10	10	15	20	-
<b>Your Rating is</b>	5	4	3	2	1	0

Your Food Hygiene Rating is 4 - a good standard

### **1. Food Hygiene and Safety**

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. **(Score 5)**

#### **Contamination risks**

**Contravention** The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- cutting boards were being stored touching
- badly worn scourers

**Legal requirement** At all stages of production, processing and distribution, food must be protected from any contamination likely to render it unfit for human consumption, injurious to health or contaminated in such a way that it would be unreasonable to expect it to be consumed in that state.

**Recommendation** Chopping/cutting boards must be stored in a rack properly divided to stop cross-contamination and to allow aeration

## Hand washing

**Contravention** The following indicated that hand washing was not suitably managed:

- staff were not seen washing their hands when I visited
- there was no hot water to the wash hand basin

**Legal Requirement** Wash hand basins must be provided with hot and cold running water and suitable drainage; soap and a hygienic way to dry hands.

**Information** Hand washing is required:

- before handling ready-to-eat food
- after touching raw food and its packaging, including unwashed fruit and vegetables
- after a break/smoking
- after going to the toilet
- after cleaning
- after removing waste
- after blowing your nose

**Information** Proper hand washing is essential in preventing the spread of E. coli 0157 and other harmful bacteria onto food and food contact surfaces. Proper hand washing must include the following steps:

- wet hands before applying soap
- good hand rubbing technique
- rinsing of hands
- hygienic drying

**Recommendation** After washing hands food handlers should turn the taps off using paper towel to prevent them from re-contaminating their hands

## Personal Hygiene

**Contravention** The following are examples of poor personal hygiene or where it was made difficult for food handlers to maintain sufficiently high standards of personal cleanliness:

- staff were not wearing suitable protective clothing
- jewellery/ watches worn when preparing food

**Legal requirement** All persons in food handling areas must wear suitable, clean, and where appropriate protective clothing

## Poor Practices

**Contravention** The following matters represented poor practice and if allowed to continue may cause food to become contaminated or lead to its deterioration:

- no labels of when open or prepared on open or prepared foods in fridges

**Recommendation** I recommend that you label your own food i.e staff lunches in the fridge. There is a presumption in food law that all foods stored on a food business are

part of that business and need to be stored and labelled accordingly to satisfy the inspecting officer it complies with legal requirements

## **2. Structure and Cleaning**

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. **(Score 5)**

### **Cleaning of Structure**

**Contravention** The following items were dirty and require more frequent and thorough cleaning:

- flooring behind and under equipment

### **Cleaning of Equipment and Food Contact Surfaces**

**Recommendation** Remove protective film to equipment to enable easy cleaning

**Observation** You had colour-coded equipment on which to prepare food.

**Observation** You had dedicated equipment for the preparation of raw and for ready-to-eat foods.

### **Cleaning Chemicals / Materials / Equipment and Methods**

**Information** You must ensure that the sanitisers you use are effective against bacteria. Ensure that they meet the following standards BS EN 1276:1997 and 13697:2001.

### **Facilities and Structural provision**

**Contravention** The following facilities were inadequate or absent and must be provided or improved:

- the hot water supply is insufficient

**Legal requirement** An adequate number of washbasins must be available, suitably located and designated for cleaning hands. Wash-hand basins must be provided with hot and cold (or suitably mixed) running water.

## **3. Confidence in Management**

There are generally satisfactory food safety controls in place although there is evidence of some non-compliance with the law. The contraventions require your attention; although not critical to food safety they may become so if not addressed. **(Score 10)**

## Proving Your Arrangements are Working Well

**Contravention** The Management sections in your Safer food Better Business (SFBB) pack are intended to demonstrate you are in day-to-day control of the hazards to food. The following Management sections were either missing, incomplete or not up-to-date:

- cleaning schedule
- training records

## Traceability

**Observation** Your records were such that food could easily be traced back to its supplier.

## Infection Control / Sickness / Exclusion Policy

**Guidance** UK Health Security Agency recommends that food handlers known or suspected to be suffering from a food-borne infection or gastrointestinal illness stay away from work until symptom-free for 48 hours.

## Training

**Observation** I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

## Allergens

**Observation** You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.

**Observation** You had devised a chart listing all the food you provide with the allergens present in each and had brought this to the attention of your staff and customers.
