Management measures

Provide further information for the following questions to support your application:

- Outline how the area will be managed to ensure all conditions are complied with when the licence is in use.
- Outline how local nuisance will be managed.
- Will the placement of the table and chairs allow for people to pass with a minimum of 2 metres?
- Where will the pavement furniture be stored outside of licensable hours.

the area will be managed by staff and management. it is already in an area where other premises currently hold pavement licenses. I believe the conditions will be the same as theirs.

local nuisance will be managed by only allowing paying customers to sit at the tables and as per any license anyone who is seen to showcasing anti social behaviour will be asked to move on

the placement of tables and chairs easily allows people to pass within the 2 meter

the pavement furniture will be stored inside the vent when outside of the licensable hours.

we will also be operating a QR code ordering system to make sure it is staff carrying any drinks outside.
